

Chapter 31

PROTOCOLS

◆ **Basic Session Sample.....142**

CHAPTER 31

Protocol

Please keep in mind that this is a sample only and the conditions that your client is presenting will of course determine the protocol that you will follow.

Basic Sample Session

The objective here is to create a bio terrain in the client that will foster healing. In order to achieve this we want a Ph balanced, hydrated, mineralized body and to reduce/eliminate the pathogens.

Once the client has been **ASSESSED**:

Pay attention to the **VARHOPE** and **Regulatory Dysfunction**. These scores will determine specific therapies to follow that may not be listed below.

Matrix:

3 min. Zap the Top 200-250 items (Chapter 2, pg 22)

Look at the high and low items on the **Matrix**, dialoging briefly with your client any items that strike you as significant or repetitive.

Select **Worms** from the subfile.

C "T" on your keyboard 5 times (**5 T's**) very quickly for each of the highest ones listed.

Select **Minerals** from the subfile.

C 5 T's for the highest ones.

Select **Chromosome** from the subfile.

C 5 T's for the highest ones

Type **Secretin** in the **Search for Item** box.

C 5T's Secretin

Type **Chlorella** in the **Search for Item** box.

C 5T's Chlorella

Cont next pg.

Short Sarcodes: This will open up the channels for detoxing
(Chapter 19, pg 97)

- C Ear & etc...**
- C Lymph (DBL C background)**
- C Lung (DBL C background)**
- C Kidney (DBL C background)**
- C Sm. Intestine (DBL C background)**
- C Female OR Male Organs (DBL C background)**
- C Endocrine (DBL C background)**
- C Close**

Risks Profile: (Chapter 21, pg 105)

- C Load Current Patient**
- C By Number**
- C Risk Chart Graphic**
- C Therapy**
- C Therapy for top & bottom balance (or the most suitable choice)**
Pay attention to the highest risk areas. You may choose to follow any findings further, perhaps pursuing Virtual Doctor.

Therapy:

Do the primary recommended therapy highlighted in **Yellow** at the top of the page.

Follow this to its completion.

Now do the secondary recommended therapy listed in **Purple** at the top of the page.

Auto Trivector and DNA Treatment: (Chapter 9, pg 47)

(It is likely that Trivector and DNA was the secondary recommendation)

If Dysfunction in Vit.K appears:

C Auto Focus Zap Mode (top menu bar)

C Autozap Candidas (drop down list - this will give a 5 min. zap)

If there is not enough time in the session then zap the top candidas items (do Search) with **5 T's** from the Test Screen (**Chapter 3, pg 28**).

Scalar: (Chapter 6, pg 38)

C Treat All

You can really enhance the relaxation process by guiding your client through each Chakra asking them to gently focus their awareness on the current Chakra; getting a sense of where it is in their body and relaxing into it as they balance. This therapy will drive all the minerals into the body.

Spinal: (Chapter 12, pg 63)

C Test and Treat (repeat until corrected)

C Neuro Emotional Complex (balance emotions)

C Organ Chart (balance organs)

Timed Therapy: (Chapter 12 pg 65)

If there are selections already chosen:

C Start (seek rectification of **85** or more - repeat if necessary)

OR

C Repeat Unconscious Search

C Start (rectify to **85** or more)

NLP Programming: (Chapter 22, pg 109)

Select the unconscious choice of therapy.

Homotoxicology: (Chapter 18, pg 92)

C Info

C Xenobiotics

C Treat Top Five (seek rectification of **85** or above)

Bio Terrain: (Chapter 18, pg 93)

Access this through **Homotoxicology**

C Bio Terrain

This information will reveal where the clients Bio terrain began before therapy and where it is now at as a result of therapy.

Please read the information on the **Bio terrain** in **Homotoxicology**

Aura Scan and Balance: (Chapter 23, pg 117).

This will seal in all the therapies done and provide a protective shield for your client

Varhope Improvement: (Chapter 29, pg 136)

Do the **Retest** to see the improvements.

Check Current Rectifications: (Chapter 29,pg 137)

C Correct all till maximum
