# CHAPTER 5

## AUTO MERIDIAN / ALLERGY

This program is useful for stimulating and unblocking obstructions in the meridians of the body. Meridians are a series of “channels” or “pathways” in which life force or Qi runs through the body. Each meridian corresponds to a different organ/organ system and its functions.

## Auto Meridian/Allergy

From the Test Screen:

**C Programs** (top menu bar)

**C Therapy** (drop down list)

**C Auto/Meridian/Allergy** (this therapy automatically stimulates and adjusts the acupuncture meridians)

**C Start Meridian Therapy** (**black** print indicates blocked meridians)

Do not retest if **Electrically the Patient is Balanced** appears, otherwise:

**C Retest All** (this will repeat and balance further revealing the **Acu Diag purple** screen)

Make note of the information or you can **Make Report** if you like.

**C Close**

### ★ *Options:*

## Acupoint

**C Acupoint**

**C Acupuncture Picture Program**

**C Consciousness Form Test**

**C Take Acupoints from Acu Screen**

**Type** in psych. Problem, fear etc...

**Type** in physical problem

**C Start** (**resonance** and **coherence** should be above **80**)

**C Close**

**OR**

**C Super Conscious Search for Point** (lower left corner)

**DBL C** background of picture to treat until point corrected

✓ **Hint:** Following **Acu Point** return to **Acu Diag** the **Repair All** button is now activated (**see next page**).

## Acu Diag

**C** Acu Diag

**C Repair All**

The objective is to have all items clear to **000**. If it does not clear you can try again by:

**C Close** and reopen **Acu Diag** - repeating will reactivate **Repair** button

## Individual Meridian Balance

**C** Acupoint

**C Acupuncture Picture Program**

**C** on corresponding point

**C Test and Treat** (resonance and coherence should be above **80**)

**C Close**

★ *Options:*

## Acu Pt RX - Reflexology

**C** Acu Pt **RX** (**Reflexology** - very top right of Acu Meridian therapy screen)

**C** one of the Buttons in the pink area

**C Treat and Scan for each button in sequence**

✓ *Hint:* leave screen if **Alarm Response, No More Treatment** appears.

★ *Options:*

## Hour Clock

### **C** Hour Clock

This can provide clues as to specific organ involvement if the client has stronger symptoms at a particular time of day or night.

**DBL C** removes the program.

## Testing Meridians with Nutrients

### Testing Meridians with Nutrients

By typing the name of a nutrient into the *white* box below **Acu Diag** the **Test the Meridians to an Item** key will appear. *White* **Highlights indicate the positively responsive meridians.**

## Quadrant Therapy for Pain or Acupuncture Stimulation

**C Check Quadrant For Disturbances** (note quadrants with the highest numbers)

**C** button next to a quadrant to start a therapy

## Allergy RX

**C Allergy RX** (It seems to be more effective treating allergies using **Allersodes** in the Spinal Program)
