CHAPTER 6

AUTO SCALAR

This program is for balancing the subtle energy centers in the being, known as the **Chakra** system. Like acupoints, charkas are specialized energy centers throughout our bodies where a unique form of subtle life-force energy is absorbed and distributed to our cells, organs and body tissues. Each **Chakra** relates to different organs and tissues. The flow of this energy is greatly affected by our personality structure, our emotions and our state of spiritual development.
