CHAPTER 9

AUTO TRIVECTOR

This is a deep cellular balancing therapy extremely effective in recharging a clients "battery". It assists the body in retaining the frequencies from the entire session.

Figure 16 – Auto Trivector

Auto Trivector

From the Test Screen:

C Programs (top menu bar)

C Therapy (drop down list)

C Auto Trivector

C Use Electro Chelation Boost (this is optional – however highly recommended)

C drag bar to Double Power (bottom left of screen on blue menu bar – optional)

C Start

If therapy is not complete you may do additional balancing. Conductance, Capacitance and Inductance should be **85 -90**.

C Prepare for Special Treatment. Wait for it to prepare

C Start

Note the nutritional hints at the bottom of the screen. (Dysfunction in regulation of

Vit. K indicates candidas overgrowth)

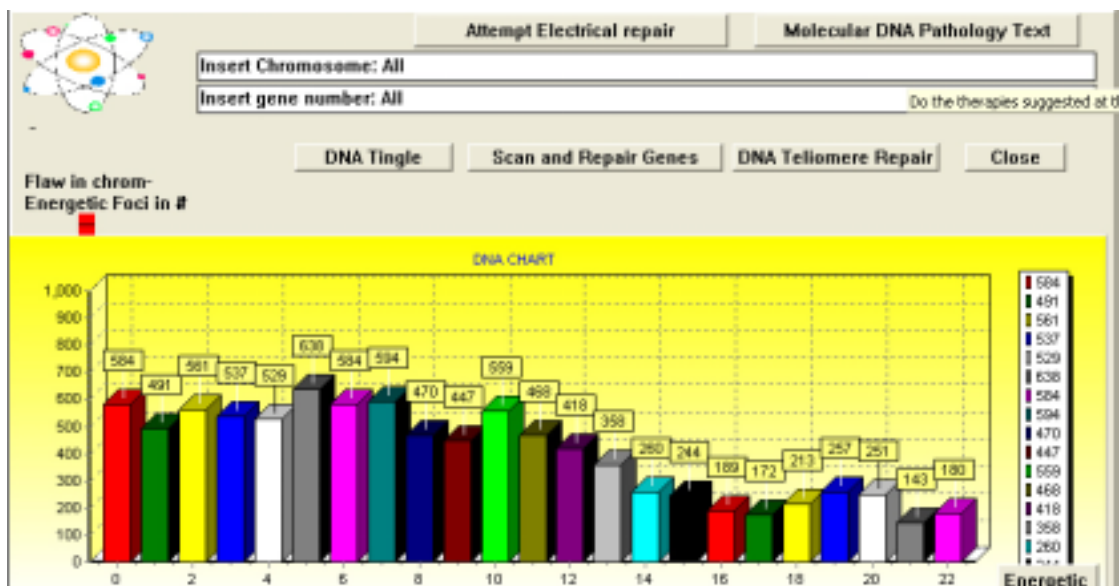

Once the trivector is balanced:

C Energetic (button lower screen- follow procedure as in **Auto Frequency** pg. 43)

C Close

Return to **Auto Trivector** to complete **DNA** therapy.

Figure 17 – DNA The Book of Life

C DNA The Book of Life (top right of screen)

C Scan and Repair Genes (until Rectification is **100**)

If less than **100** go to *Option* below, otherwise proceed:

C Attempt Electrical Repair

The goal is to have all the bars on the graph over **1000**. If not then proceed:

C Alter DNA Freq. Structure (if not visible click repeatedly on the **Atom Icon**)

If the bars on the graph are still not all or mostly over **1000** then:

C DNA Tingle (you may need to repeat this - up to a max. of **3** times)

If the bars are all or mostly over **1000** then:

C DNA Telomere Repair (let this run for 10 min. to bind any loose DNA strands. You can minimize this and proceed with other therapies)

C Close

★ *Option:*

C DNA The Book of Life

Insert Chromosome:

Insert Gene Number:

All is the automatic selection, however you can insert choices from the **Chromosome subfile** on the **Test Screen** or insert the items showing in **Flaw in Chrom-** and **Energetic Foci in #** - on the **DNA screen**

To add items from the **Chromosome subfile:**

C Close (until your back to the Test Screen)

C Chromos in the subfiles list (select the highest two or three numbers, such as **19 Q**, **5 P** and write them down)

Now return to **DNA The Book of Life**.

Insert Chromosomes: Erase **All** and put in the alphabetical value. Such as, **Q P** with two spaces between each.

Insert gene Number: Erase **All** and put in the numerical value. Such as, **19 5** with two spaces between each.

C Scan and Repair Genes (rectify to **100**)

C Attempt Electrical Repair

Cont next pg.

Return **All** to the **Insert Chromosomes:** and **Insert gene number:**

C Alter DNA Freq. Structure (if not visible, click on the **Atom Icon** a few times)

If bars on graph are not all or mostly over **1000** proceed:

C DNA Tingle (up to a max. of **3** times)

If the bars are all or mostly over **1000** then:

C DNA Telomere Repair (let this run for 10 minutes. to bind any loose DNA strands.

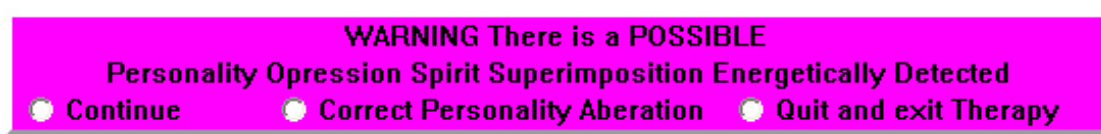

You can minimize this and proceed with other therapies.

C Close

Aberration Box – Spirit Imposition

Warning There is a Possible Personality Oppression Spirit Superimposition Energetically Detected

Figure 18 – Aberration Box

C Correct to clear it.

If this appears it can indicate a few possibilities. The client has attracted a compatible **or** forceful entity **or** has a hole in the aura field **or** is undergoing a persistent attack. What the system is detecting is a second engram or personality and accepts that the first personality is the client's real personality and the second an imposition. Should this arise often with a particular client, you may wish to discuss ways in which the client can protect themselves (such as, wearing a clear Quartz crystal or visualization with protection intent). You can also do additional treatment in the Biofeedback program. To access this:

C Biofeedback (top menu bar)

C Release Spiritual Attack or Oppression (drop down list)

You can also run this program simultaneously:

C Biofeedback (top menu bar)

C Body to Soul Connection (drop down list)

Let this run until the Rectification stops on its own, ideal is 95 or above
